Driving Tours

Each of the two driving tours covers approximately 230 km through some of the most beautiful regions of Upper Bavaria. To provide all participants with the most engaging driving experience possible while ensuring a relaxed event without large gatherings of vehicles, the cars will be divided into several smaller groups.

On each of the two days, every group will drive one of the routes, Lake Chiemsee or Ahornboden, so that every participant can enjoy both tours in full.

All SLK and SLC model series, as well as Mercedes-Benz SL-Class vehicles, are eligible to participate in the driving tours because the participation criteria at MBSLK are less stringent than those of the Munich Stammtisch.

Further details about the schedule will be provided in the event guide after registration.
